## TECHNICAL BULLETIN

# CON-FORM

## BIODEGRADABLE FORM RELEASE

### DESCRIPTION

CON-FORM is specially formulated to provide easy form removal and a smooth concrete finish by preventing the buildup of concrete on metal, plastic, or wood forms. It has been formulated to provide clean, quick-release characteristics while leaving a smooth, stain-free finish. CON-FORM helps to minimize the cleanup of equipment as it doesn't leave a product film or build-up on the form. It is also low odor, biodegradable and low VOC. CON-FORM is easily applied and it comes ready to use. This is a vegetable oil product which does not contain any silicone.

### APPLICATION

CON-FORM can be applied by brush, roller, or spray. It can be used on concrete structural units, precast concrete panels, and pre-stressed bridge beams. It also works well on concrete pipe, septic tanks, and concrete poles and pilings.

### FIRST AID

**EYES:** Immediately, flush eyes with water for at least fifteen minutes. Get medical aid if irritation persists.

**SKIN:** Flush skin with plenty of water. Get medical aid if irritation develops and persists.

**INHALATION:** Move to fresh air. Use artificial respiration if needed using proper respiratory medical device. Get medical aid immediately if needed.

**INGESTION:** Do not induce vomiting. Get medical aid immediately.

### NOTICE

Mobile Solvent & Supply, Inc. products are safe and effective when used as directed. When using as a cleaner, always test a small area for adverse reaction. Since the manufacturer cannot control conditions or method of application, no warranty or liability beyond replacement of defective product is offered.
