TECHNICAL BULLETIN

ATLAS CONCENTRATE

DESCRIPTION

Concentrated for full strength cleaning. Use it full strength for heavy duty cleaning or dilute with water for lighter jobs. It emulsifies and removes grease, oils, and soils from surfaces being cleaned. It suspends dirt and foreign material and allows it to be wiped or flushed away. Safe to use on most finishes and is recommended for cleaning engines and underhood painted surfaces, aluminum, whitewall tires, walls floors, vinyl upholstery, lawn furniture, outdoor grills, ceramic tile, porcelain fixtures, fiberglass boats, and glass. It is excellent for use in steam cleaning machines and high pressure washers. It will remove oil, grease, dirt, road film, heel marks, finger prints, and kitchen grease.

DIRECTIONS

Atlas is concentrated and should be diluted for optimum economy. Every cleaning job is different and the following usage guidelines should be modified to suit the conditions at hand

- For all purpose cleaning, dilute 1 part cleaner with 50 to 75 parts water.
- Whitewall tires, dilute 1 part cleaner with 5 parts water.
- Heavy soils such as floors, outdoor grills, fiberglass boats, machinery, engines, and greasy tools, dilute 1 part cleaner with 10 parts water.
- For steam cleaning and high pressure washing, dilute 1 part cleaner with 75 to 100 parts water.

CAUTION

Avoid contact with eyes and skin. Do not take internally. In case of eye contact, immediately flush with water for at least fifteen minutes and consult physician if irritation persists. If swallowed, DO NOT INDUCE VOMITING, drink large amounts of water and consult physician. In case of skin contact, flush with water.

WARRANTY

Mobile Solvent & Supply, Inc. products are safe and effective when used as directed. When using as a cleaner, always test a small area for adverse reaction. Since the manufacturer

cannot control conditions or method of application, no warranty or liability beyond the replacement of defective product is offered.
