TECHNICAL BULLETIN

RUST FOE

RUST REMOVER AND METAL PREP

DESCRIPTION

RUST FOE is a fast acting, free rinsing acid and detergent formulation designed to remove rust and corrosion from steel and aluminum. It will remove light grease and oil. RUST FOE passivates the surface and forms a roughness which promotes paint adhesion and retards future rusting.

DIRECTIONS

RUST FOE may be applied by spray, brush, or dip method. It may be diluted with water where light rust or corrosion is encountered. Heavy flake rust should be removed by chipping, blasting, or brushing prior to application of RUST FOE. Apply RUST FOE and allow it to remain on the surface for 10 to 15 minutes or until rust and corrosion are removed. Rinse with water and dry.

CAUTION

Contains phosphoric acid, UN 1805. Severe eye irritant, may cause chemical burns to eyes. May cause irritation or burns to skin. Harmful or fatal if swallowed. In case of eye contact, flush with water for at least 15 minutes and get medical aid if needed. In case of skin contact, flush with water. If swallowed, DO NOT INDUCE VOMITING, drink large amounts of water to dilute and get medical aid. Wear protective gloves, boots, goggles, etc sufficient to prevent bodily contact.

WARRANTY

Mobile Solvent & Supply, Inc. products are safe and effective when used as directed. When using as a cleaner, always test a small area for adverse reaction. Since the manufacturer cannot control conditions or method of application, no warranty or liability beyond replacement of defective product is offered.
